Re: Persistent, Bio-accumulative, and Toxic chemicals (PBT)

Dated: August 21, 2024

To Whom It May Concern:

Per the requirements under the Toxic Substances Control Act (TSCA) as stated in by the EPA, and the Lautenberg Chemical Safety Act who issued rules associated to help reduce the exposure of the following list of PBT chemicals into the environment where they may build up in concentration over time.

The rules limit the use, manufacturing, and processing of the following PBT chemicals:

1. Decabromodiphenyl ether (DecaBDE)
2. Phenol, Isopropylated Phosphate 3:1 (PIP3:1)
3. 2,4,6-tri(tert-butyl)phenol (2,4,6-TTBP)
4. Hexachlorobutadiene (HCBD)
5. Pentachlorothiophenol (PCTP)

CalRamic Technologies LLC certifies that it is compliant with all the Rules of the PBT requirements and the TSCA with regards to the 5 chemical listed above and that **none** of the chemicals listed above are contained, manufactured, processed, or used in the CalRamic Technologies factory or products.
