Re: European Union POPs Regulation of Prohibited Substances EU directive #2019/1021

Dated: August 20, 2024

To Whom It May Concern:

With regards to the requirements set forth in the POPs prohibited substances regulation released on August 11, 2023, CalRamic Technologies located in Reno, NV and our sole manufacturing site **does not** have any substances in our factory that conflicts with the requirements set forth in the regulation.
